

MAKE: **Kawasaki**

*fitting Instructions*

MODEL: **Z900 RS**

YEAR: **17 - 22**

---

Thank you for purchasing your new handmade product from Pro-Race Exhaust Systems UK.

Step 1 : Remove standard/current exhaust

Note : If fitting a GPS1 only steps 2, 3 and 4 are required.

Step 2 : Slide link pipe/GPS1 on to exhaust outlet as in [PICTURE 1.](#) Note: exhaust clamp has a nut welded to it for carbon panel fitting

Step 3 : Tighten exhaust clamp as in [PICTURE 2.](#) To hold link pipe in place, do not fully tighten.

[PICTURE 1.](#)

[PICTURE 2.](#)

Step 4 : Fit carbon fibre cover as in [PICTURE 5 & 6](#) with supplied bolts, turn the clamp to align all bolts and tighten. Note: if fitting GPS1 align exhaust and fully tighten clamp and this installation is now complete

[PICTURE 5](#)

[PICTURE 6.](#)

Step 5 : Slide your purchased exhaust onto the link pipe as in [PICTURE 7.](#) Align lock tab and secure with bolt provided as in [PICTURE 8.](#)

Step 6 : Straighten whole exhaust assembly and fully tighten link pipe clamp as in [PICTURE 9](#) Your exhaust is now fully installed. Note: if your exhaust comes with a exhaust hanger bracket please follow steps 7,8 & 9 to complete installation
